

Year 6 Home Learning

Hey year 6!

Happy Easter break! I hope you're all doing well and taking advantage of the time home with your families. I've assigned work during this week just to give you something to keep busy with. I've made the tasks a bit more fun and interactive.

Subject	Task	How to record
DT/PSHE 	Plan, prepare and cook a meal (or two) with a family member. After, use slides to upload information about the dish, including the recipe and cooking instructions. If possible, upload pictures of you cooking and the final product. I'll do the same!	Create a 'slides' document in the DT/PSHE folder.
English 	Write a diary entry about what you have enjoyed during this challenging time. What are you grateful for? Are there things that you have been able to do that you usually don't have the time for? Write this in a google doc in the English folder.	Create a google doc in the English folder
Art 	Learn some origami (check out the Japanese tradition of 1000 paper cranes) https://www.youtube.com/watch?v=IKOVYw9R7oI https://www.youtube.com/watch?v=OdeCfjnsxA8 If possible, take pictures and upload them into the Art folder	Upload a picture if possible of your creations in the art folder
PE 	Continue to join us every morning Monday-Friday at 9am for the Joe Wicks session, live on you tube. Every morning I post a google document for you to type your name.	Sign the morning PE document
