Thunder Jam - Rainforests

Watch the clip about using percussion sounds to create a sound picture of the rainforest.

Body Percussion Rainforest (see worksheet)

Create the sound of a storm using sounds you can make with your body. This is called body percussion. You could also try using any instruments or non-breakable things you have around your house that can make a sound (ask a parent or carer first). Are there other people that you live with that can help you create your rainforest sound picture?
